

Aditya Kumar

Phone: +91-9817889068 | Email: aditkumar0715@gmail.com | Github: github.com/giriexplores | LinkedIn: linkedin.com/in/giriexplores

Skills

- **Frontend:** HTML5, CSS3, Tailwind CSS, React, Redux Toolkit, Next.js, Responsive design
- **Backend & Databases:** Node.js, Express, RESTful APIs, Socket.IO, PostgreSQL, MongoDB, SQLite3
- **Programming & Core Concepts:** JavaScript, TypeScript, C++, Object Oriented Programming (OOP), Data Structures and Algorithms (DSA), Operating System, Database Design
- **Tools & Technologies:** Git, GitHub, Docker, AWS (EC2, Lambda, S3, SQS, IAM)
- **Soft Skills:** Problem Solving, Critical Thinking, Team Collaboration, Effective Communication, Time Management

Experience

Full Stack Developer (Internship) - KRPL Tech

Jul 2025 – Present

Tech Stack: React, Redux Toolkit, Node.js, Express, PostgreSQL, Socket.IO, TypeScript, AWS (S3, SQS, EC2)

- Designed a video transcoding pipeline using AWS (S3, SQS, and EC2) reducing processing time by 60%.
- Migrated 15+ project databases from Neon to Supabase, architecting a cost-efficient solution by leveraging PostgreSQL multi-database capabilities via SQL, reducing infrastructure costs from over \$250 to under \$30 (~88% reduction).
- Developed a multi-tenant e-commerce platform with role-based access control (RBAC) supporting 4 user roles.
- Built an Ads Management Platform featuring permission-based access control with support for 10+ granular permissions enabling secure collaborative workflows.
- Optimized backend APIs response time by ~15% through query optimization and code refactoring.

Freelance Full Stack Developer

Jan 2025 – July 2025

- Collaborated with 5 clients to gather requirements and deliver scalable, production-ready solutions.
- Migrated a brand-influencer platform from Laravel to Node.js and React, improving performance and UX.
- Built and deployed an e-commerce platform with product search, filtering, cart, order, and checkout workflows.

Projects

Chat-it: Real-Time Chat Application

Tech Stack: Socket.IO, React, Redux Toolkit, Node.js, Express, MongoDB, TypeScript, JWT, Zod

- Built a real-time chat application with WebSocket-based communication for instant messaging.
- Implemented secure authentication using JWT.
- Designed scalable backend APIs to handle concurrent users efficiently.
- [GitHub \(Backend\)](#) | [GitHub \(Frontend\)](#) | [API Docs](#)

Employee Management System (EMS)

Tech Stack: Node.js, Express, MongoDB, JWT, Mongoose

- Implemented a backend system for employee management, including departments, tasks, and feedback.
- Built RESTful APIs with authentication and role-based authorization.
- Planned efficient database schemas for scalability and performance.
- [GitHub](#) | [API Docs](#)

Shop-it

Tech Stack: React, Redux Toolkit, Tailwind CSS, Framer Motion

- Developed a responsive e-commerce frontend with advanced search and filtering capabilities.
- Managed global state using Redux Toolkit for seamless user experience.
- Improved UI/UX using Framer Motion animations.
- [GitHub](#) | [Live Demo](#)

Education

Master of Computer Applications (MCA)

Jul 2024 – Present

Amity University, Noida

Bachelor of Computer Applications (BCA)

Jul 2021 – Jul 2024

Kurukshetra University, Kurukshetra

Certifications and Achievements

- Completed **Harvard's CS50**, building strong foundations in data structures, algorithms, and problem-solving.
- Secured **2nd place** in a debugging competition by resolving complex issues under time constraints.
- Secured **3rd place** in a software development competition by solving complex problems under time constraints.
- Ranked among the **top performers** at E-Karma Centre for consistent high-quality web development work.
